Serving key clients in Saudi Arabia, Dammam has a combined area of 65,500 square meters for the prefabrication and assembly of decks, jackets, boat landings, and other small structures. The planned capacity for the yard is 1 million man hours of fabrication work per year with an annual throughput of approximately 10,000 short tons.

**Yard Statistics**
- **Accomplishment**: Largest Jacket 816 MT
- **Annual Manhours**: 1 million
- **Annual Throughput**: 10,000 MT

**Certification**

**Welding Capabilities**
- FCAW, SAW, GMAW, GTAW, SMAW, PGMAW

**Area**
- **Total Area**: 65,000 sqm.
- **Covered Area**: 4,500 sqm.
- **Open Area**: 45,000 sqm.
Facilities
Warehouse (Open): 4500 sqm
Warehouse (Covered): 700 sqm
Pipe Fabrication Shop: 1500 sqm
Exotic Pipe Workshop: n/a
Pipe Rolling Mill: n/a
Cladding Facility: n/a
Plate Cutting & Fabrication Shop: 1500 sqm
Brace Preparation Facility: 315 sqm
Beam Preparation Facility: 210 sqm
Painting & Blasting Facility (Open/Paved): 45000 sqm
Painting & Blasting Facility (Covered): 1000 sqm
Pipe Fabrication Area (Paved): 4000 sqm
Steel Structure fabrication Area (Paved): 14308 sqm
Jacket / Deck Assembly Area (Open): 14000 sqm
Deck Assembly Area (Covered): n/a
Deck Assembly Area (Paved): n/a

Quayside for Loadout
Quayside Total Length: 500m
Reinforced: 500m
Soil Bearing Capability: 250 KN/sqm
Max Loadout Weight To Date: 816 MT
Max Allowable Load: 1000 MT
Minimum Water Depth at Low Tide: 11.5m
Maximum Water Depth at High Tide: 13.2m
Distance to Open Sea: 500m
Channel Width: 416.33 m
Channel Depth: 16m

Additional Information
Accessibility / Distance to Airport: 50 Km
Average Annual Temperature: 13 - 45 deg. Celsius
Annual Rainfall Average: 3 - 5 days/Year
Types of Loadout: trailered & lifted
Free Trade Zones: no

Equipment
Welding/Cutting Machine: various
Crawler Crane: n/a
Telescopic Crawler Crane: 2
Hydraulic Crane: n/a
Tower Crane: n/a
Overhead Crane: 6 (Range from 5T to 15T)
Handling Equipments: forklifts, trailers
(Capacity from 2.5T - 14T)
Multiwheel Trailer: n/a
